

**ORANGE COUNTY WATER DISTRICT
DIRECTOR, DIVISION 6**

WES BANNISTER

OCCUPATION: Director, Orange County Water District

As your elected Water District Director, my goals have been:

- Maintain reliability of our water,
- Keep the costs low,
- Assure the quality of our water supply,
- Improve the efficiency and costs of District operations.

I am proud to say that all four objectives have been exceeded:

- With the construction of the new GWRS plant, we have gained reliability,
- Our water is far below the costs of other suppliers,
- Our quality exceeds the State and Federal levels in every category,
- The District costs were lowered!

If elected, during the next four years I will continue the same kind of efforts. To increase reliability, I will lead the effort to look for other sources of water. I will work hard to reduce costs of our water in every area. Quality of the water will be maintained at the highest level. I will help keep the efficiency of the District work force at its highest level.

I ask that you allow me to continue to work as a director of the OCWD and I ask for your vote in November.

Thank you.
